Debra McTaggart:yes, my audio is also cutting out  
GARY VANANTWERP:If you need help with audio, click here: <http://tinyurl.com/AdobeTestPage>  
Debra McTaggart:yes, my audio is cutting out too  
GARY VANANTWERP:use private chat please if you need individual help  
Mike Trozzo:audio is a little choppy  
GARY VANANTWERP:If you need help with audio, click here: <http://tinyurl.com/AdobeTestPage>  
Zeeshan Hussain - Adobe:Re-connect to the meeting from a different browser preferably IE, if you are facing audio issues.  
RICK PAULIN @ Windham Professionals, Inc.:Great tip. This is helpful already!  
Diane:Audio out  
GARY VANANTWERP:Pooja rocks.  
Diane:In and out  
Andy:Audio cutting in and out  
GARY VANANTWERP:Uh-oh.  
Laura Mead:audio cutting out  
Sandy:The audio keeps cutting out.  
Leslie:Ohio  
Earl J:dropped audio for a sec, using Adobe Connect  
Barb S:audio cutting in and out  
Denise:audio cutting  
Tiffany:audio cutting out  
Evette Tillery:audio keeps cutting in and out  
Paola:in and out audio  
Sandy:It is better now.  
MM:audio is cutting in and out  
Tiffany E.:audio is out  
Alejandro Sanchez:Yes is cutting in some moments  
GARY VANANTWERP:She is connecting from Bangalor. There may be some brief cutouts. If it is tood bad an you can't understand her, you'll be able to listent to the recording w better audio  
Mike Trozzo:Does using the media dropdown to import instead of d/d have any effect on size?  
Zeeshan Hussain - Adobe:No Mike  
Mike Trozzo:thanks Zeeshan  
Siri:The audio is fine  
Fox:seems to be a delay rather than lost audio for me  
Mike Trozzo:drag/drop  
GARY VANANTWERP:thx miek  
GARY VANANTWERP:mike  
Jon Payne:same thing here as Fox. Not missing any audio, it'll cut out then pick right back up where it cut off a second or two later  
Jon Payne:not a big deal for me at all  
Jon Payne:)  
Nancy 2:great tip! image file size has been an issue with overall file output size  
GARY VANANTWERP:Thanks Nancy2  
Craig:? Why not just "save for web"  
Barb Green:what if you do not have photoshop?  
Robi:how about just resizing it?  
Siri:She said you can use powerpoint or paint  
Barb Green:Thx Siri  
TamecaB:does image format matter- jpeg, png etc?  
Kristi L:You can also use Photoshop Express to resize the image, it is free  
Siri:welcome  
Nancy 2:is there a benefit of saving the template background with image in PS and bringing it in as a whole object?

Recording available at <https://www.trainingmagnetnetwork.com/events/1323>

Robi:but it cut the hands below  
Scot French:Great tip, thanks!  
Aditya\_Adobe:no tameca.. it doesnt matter  
TamecaB:thanks Aditya  
Robert Page:my sound is terrible!  
GARY VANANTWERP:Again - pls use private chat if you have issues. Suggest you log out and rejoin for better audio.  
Zeeshan Hussain - Adobe:@Nancy, as far as the image size exported from photoshop is not too heavy, it should be good  
Robi:can yo uduplicate to another slide?  
Zeeshan Hussain - Adobe:Yes Robi  
Anthony, CEO of Crosstown-Consulting LLC:oh, that's a nice feature or capability  
Tiffany:I have found when I duplicate buttons, sometimes the object state get's messed up to where my button shrinks when I hover on it. Is there a way to keep this from happening?  
Zeeshan Hussain - Adobe:Duplication of slides is possible and copy pasting of objects is also possible  
Robi:thanks Zeeshan  
Roz:Format matters in the case of JPG because that compresses the image. PNG = portable network graphic which is a better format to use if you don't want to lose pixels upon saving/compression  
Aditya\_Adobe:@tiffany.. which version of captivate you are on?  
Tiffany:captivate 2017  
krex@insynctraining.com:Yes, as Roz points out: PNGs use a lossless compression  
Zeeshan Hussain - Adobe:@Tiffany, that should not be happening on duplication of buttons with states  
Robi:I meant duplicate on eitme in another slide, not duplicating the slide  
Anthony, CEO of Crosstown-Consulting LLC:Robi, here's your answer  
Tiffany:Yes - Im not sure why it is happening -  
Zeeshan Hussain - Adobe:@Robi, duplication of objects is specific to a slide...what you are mentioning can be achieved via copy on one slide and paste on another slide  
Sally:great tif  
Robi:thanks, that's what I thought, Zeeshan  
Sally:tip  
Aditya\_Adobe:tiffany.. clear prferences under utils and try working on a new session  
Al:Is it better to use this technique or use the master slide?  
Renee Reyes-Garcia:rest of slide only works on shapes right?  
Zeeshan Hussain - Adobe:@Tiffany, Fo any issues, please use Adobe elearning community - <https://elearning.adobe.com/> and issue will reach to us and support team will rectify it for you  
Tiffany:Ok - I will try there to show the issue we are seeing...  
Zeeshan Hussain - Adobe:@Renee - Thats Rest of project :)  
Tiffany:Thank you!  
Zeeshan Hussain - Adobe:Sure Tiffany..it should be troubleshooted easily i believe  
Liz:will it add the object to only the slides that are LEFT on the project?  
Aditya\_Adobe:@tiffany but please do try clearing preferences and working  
Liz:or will it add to entire project? ie: slides that were before it  
Tiffany:how do I clear preferences?  
Zeeshan Hussain - Adobe:Liz, it will add to any slides starting from that particular slide and till project ends  
Aditya\_Adobe:goto captivate installation folder<utils  
Zeeshan Hussain - Adobe:@Tiffany - go to installation directory and within it go to utils folder and run cleanpreferences.bat file  
Tiffany:Ok - I will try that!  
Patsy:anyway to auto-number the slide # image?  
Zeeshan Hussain - Adobe:Use cpInfoCurrentSlide variable  
Zeeshan Hussain - Adobe:That variable answer was for Patsy  
Larry L from Indy:I would use one of the built in varriables  
Sally:is there no option to number slides automatically like in MS office?

### “Ten Smart Tips to Create eLearning Like a Pro with Adobe Captivate 2017”

Recording available at <https://www.trainingmagnetwork.com/events/1323>

Zeeshan Hussain - Adobe:Sally, there is..using variable cpInfoCurrentSlide or a user variable

Renee Reyes-Garcia:Oops yes the rest of project feature does not work on images or button,  
Liz:thanks!!

Sally:thanks zeeshan

Renee:Would you show those shortcut keys again?

Wendy P:appreciate how Pooja gives so much info in her presentations! thank you Pooja

Zeeshan Hussain - Adobe:ctrl+e is for rest of slide Renee

Mary Atwood:Zeeshan - How do you use a variable?

John:John Grzegorek - Training Specialist - BC Canada - Hi everyone

Zeeshan Hussain - Adobe:Go to menu bar - Project->variables

Mary Atwood:Thank you, Zeeshan

Zeeshan Hussain - Adobe:any variable you want to use, can be used in any text based object in  
Captivate...just place them with in \$\$ for eg. \$\$cpInfoCurrentSlide\$\$

Robi:also checking the x and y for correct placement

Aditya\_Adobe:and variables can also be accessed in the PI

Renee:Great...tks!

Aditya\_Adobe:properties inspector of text caption

GARY VANANTWERP:I would indeed.

Nancy 2:AH! So simple and so smart! Much better then overlaying boxes.

Anthony, CEO of Crosstown-Consulting LLC:Adobe Team: A separate webinar on using variables would be  
REALLY great and useful

Zeeshan Hussain - Adobe:Yes Nancy..States come in very hand for interactive scenarios

GARY VANANTWERP:Pooja on Multi-State Objects:<https://www.trainingmagnetwork.com/events/1264>

Anthony, CEO of Crosstown-Consulting LLC:Thanks, Gary

Mary Atwood:How does the text box with the "click each button" message change with each button?

Wendy P:thank you @Gary

GARY VANANTWERP:ALL of Pooja's recorded webinars for TMN: <http://bit.ly/2EYP2YP>

Anthony, CEO of Crosstown-Consulting LLC:"Visited" isn't the same as the button/text combo currently being  
viewed, correct?

Zeeshan Hussain - Adobe:Action for each button has been set to change the state of text caption...text  
caption has multiple states which are triggered from =button clicks

Robi:can you add a link to the text on one of the states?

Belinda:How do you add the checkmark as well?

Zeeshan Hussain - Adobe:Yes Robi

Anna S.:This is great! I've been making these interactions differently, this will save so much development  
time.

Anthony, CEO of Crosstown-Consulting LLC:Green for "not visited", grey for "visited", how to show "this is the  
button you're currently on"?

Robi:Thnaks, Zeeshan

Zeeshan Hussain - Adobe:You can add additional objects to a particular state of an object Belinda

Aditya\_Adobe:@anthony.. you have a hover state too

Kim:an you import a power point slide and use an existing "button" on the imported slide or do you have to  
create a "button" in captivate?

Robi:she has a video on how to create this interaction

Kim:can you..

Zeeshan Hussain - Adobe:@Anthony, i believe you can opt for hand cursor for interactive objects..it is  
optional

Anthony, CEO of Crosstown-Consulting LLC:thanks, Zeeshan

Kar:Did everyone's audio just disappear?

Rob:Can you keep someone from moving forward until all buttons are clicked?

Zeeshan Hussain - Adobe:@Anthony, as Aditya mentions, there are other in-built states like hover and down  
as well

Zeeshan Hussain - Adobe:Yes Rob

Kim: @Rob ... yes you can...  
Zeeshan Hussain - Adobe: No KAr  
Melissa Lee: Is there a way to modify the font for all text in the Captivate file?  
Melissa Lee: all at the same time, I mean  
Anna S.: If I have started a project in Captivate 9 and transition into 2017 - will I be able to still work on my projects or make edits without issue?  
krex@insynctraining.com: ZING! :-) Love zing.  
krex@insynctraining.com: Yes, Anna.  
Kar: I can no longer hear. I will wait for the recording. Sorry about that.  
Aditya\_Adobe: @Melissa if you configure a new style under OSM and apply same styles to all text objects  
Zeeshan Hussain - Adobe: Melissa, that should be possible from object style manager which controls styles...most of the objects have style associated to them..changing that will help  
Anna S.: Ty! @krex  
Aditya\_Adobe: but it would not be possible for existing overridden styles  
Zeeshan Hussain - Adobe: @KAr, you can try what gAry suggested..recording will not contain any audio issues anyways  
Melissa Lee: ok thank you  
GARY VANANTWERP: I know you all would like to have a copy of the chat. We'll post it as a doc along with the recording in TMN tomorrow.  
Kimberly: that would be great, thank you  
Robi: thanks, Gary  
Mary: thanks much  
Garima Banerjee: Thank you Gary!  
linda: cool!  
Shona: That's AWESOME. Thank you.  
Bill C.: nice!  
Mary: Nice!  
Garima Banerjee: Great!  
Patti: Good to know! Thanks  
Mary: how to add video  
Mary: ?  
Mary: Can you use video for the questions as well?  
Zeeshan Hussain - Adobe: @MAry, go to media and insert video...you can insert both an event video or multi slide video  
Zeeshan Hussain - Adobe: You can also do this from Video menu  
Mary: I'm in a signing environment. If I can pose questions and hints via signed videos, would be helpful  
Aditya\_Adobe: @mary you need to place videos on top  
Audra: @Mary that's brilliant!  
Aditya\_Adobe: as all question slide objects are by default on top in z-order  
Mary: didn't realize that could pose questions via video. I'll have to explore  
Mike Trozzo: state view for question responses is a game changer for me!  
Robi: can you also start the looping on slide enter?  
Zeeshan Hussain - Adobe: Yes Robi  
Robi: thanks, Zeeshan  
Zeeshan Hussain - Adobe: Nice example Pooja.. :)  
AMG: many steps...makes my head hurt!  
GARY VANANTWERP: Yikes!  
Charles B: Would you be able to integrate audio with the loop animation?  
Zeeshan Hussain - Adobe: @Yes charles  
krex@insynctraining.com: AMG -- all of those steps are in the handout (thank goodness!)  
Zeeshan Hussain - Adobe: @Krex, these are some advanced tips and tricks...pretty useful in creating great e-learning content once you get the hang of it.. :)  
Ann J: HTML5 Training Games - <http://bit.ly/2DebXPf> The Book Shopping link does not work correctly. It

takes you to the Building Block game.

Brad Cote: Maybe focus on 5 tips next time you do this training...it will be more beneficial for the learners to have the time to pick this information up.

krex@insynctraining.com: Yes, Zeeshan - FAB!

Zeeshan Hussain - Adobe: Thanks Krex...

Audra: Yep, or plan for 90 min webinar...this is awesome info though!

Heidi Trembly: I think the handout will be very helpful.

Anthony, CEO of Crosstown-Consulting LLC: agreed, Brad. Smaller chunking into two sessions; give us a chance to utilize first set, then scaffold

Kristi L: Will the handout be posted with the recording? I didn't see one on the log in page

krex@insynctraining.com: Kristi...look down from here...posted

Zeeshan Hussain - Adobe: I just want to mention here...for any issues, suggestions, feedbacks, bug reports or enhancements, please use- Adobe eLearning Community - <https://elearning.adobe.com/>, We have great elearning designers connected from all over the world..And all your queries will get answered there as well

Kristi L: Got it, thanks!

Laura Mead: Great thanks

Mary Atwood: Zeeshan - You have been a great resource on this training. Thank you!

GARY VANANTWERP: Kristi L - the handout is posted in the Handouts pod below.

GARY VANANTWERP: You may have to tab to it.

Zeeshan Hussain - Adobe: Thanks Mary...)

Joe: Does the .psd get stored in the Library, or must you keep it in a specific place on your local drive?

Kristi L: I got it Gary, thanks!

JuanG: For future webinars, I would like to see how the Adobe Quiz Results Analyzer.

Zeeshan Hussain - Adobe: It is linked to the source file on your machine Joe...any update to psd, automatic refresh happens

Aditya\_Adobe: @joe after importing its part of the library

Joe: AND, if it gets stored locally, does it create havoc if you accidentally move or delete it

Aditya\_Adobe: @joe no

Joe: Thanks Adita!

Aditya\_Adobe: you can drag it back from library and add it back to the slide

Colleen Boyle: I've never used Captivate and would like to know if there will be a more introductory session anytime soon.

Zeeshan Hussain - Adobe: @Joe, only updates in future will not reflect in captivate project..nothing else

Zeeshan Hussain - Adobe: @Colleen, You need this - <https://elearning.adobe.com/2018/02/25-brand-new-video-tutorials-for-adobe-captivate-2017/>

Heidi Trembly: Does the "snap to" feature work for guides in Captivate?

Joe: ok, so any updates to the .psd should be done with the Library edit function?

Robi: have to go to a meeting. looking forward to the recording thanks

Aditya\_Adobe: @heidi yes

Heidi Trembly: nice!

Anthony, CEO of Crosstown-Consulting LLC: that's a nice touch, for those who are particular about placement, or design principles

Melissa Lee: I need to log off to attend another meeting. Thank you for the information today! Have a great day, all!

Anna S.: This is great.

Colleen Boyle: Thank you Zeeshan

Zeeshan Hussain - Adobe: @Joe, you can edit the original files in photoshop outside captivate or you can chose to edit those psd files from captivate and it will open those in photoshop. for editing and automatically incorporate changes from photoshop to captivate..

Aditya\_Adobe: @joe if its on slide .. you can edit it as lons as the source file is linked.. delting a .psd from the slide does not break the link with with the source file

Joe: OK!! Thanks Adobe people!

Kim: can you import a power point slide and use an exisiting "button" on the imported slide or do you have to

create a "button" in captivate?

Zeeshan Hussain - Adobe:Yes KIm

Joe:does anyone know if there is still the defect with the highlight tool going out of alignment in HTML 5 output?

Joe:is stillthere

Zeeshan Hussain - Adobe:You can import the ppt slides or entire presentations within Captivate...roundtripping with powerpoint is supported as well

Anthony, CEO of Crosstown-Consulting LLC:What happened?

Zeeshan Hussain - Adobe:@Joe, that should not happen..

Anthony, CEO of Crosstown-Consulting LLC:there we go

Patti:yes

Szjermae:yes

Garima Banerjee:yes

GARY VANANTWERP:Free Trial: <https://www.adobe.com/products/captivate/download-trial/try.html?sdid=training08152017>

JuanG:Thank you Pooja - very helpful information!

Craig:@Colleen - check out iconlogic great courses

Tracie:free assets- mine never works--when I go to get assets it is always blank

Joe:Ok, it was an issue on one of my projects in Cap. 8 - we ended up having to use a shape instead of the highlight tool

Linda Caldwell:The Assets are so very helpful when creating multiple elearning projects

Zach Johnson:Sometimes when I download some characters and assets, they do not show up in the "my assets", some do and some do not. is there a reason for that?

Denise:Can you get the same assests with Captivate 9

Zeeshan Hussain - Adobe:Yes Linda

Dr. Leigha Jansen:Are the free assets subject to production/copyright concerns when publishing eLearning content as a for-profit organization?

Zeeshan Hussain - Adobe:@Zach, any issues with respect to that should be addressed on eLearning community that pooja is mentioning just now

Theresa H.:Thanks, Poojah - excellent as always.

Craig:@leigh - no coopyright

Aditya\_Adobe:no leigha

Dr. Leigha Jansen:thank you

GARY VANANTWERP:<https://elearning.adobe.com/>

Linda Caldwell:Zach - Contact Adobe Support. The same thing happened to me. You may need a patch to your Captivate version.

Zeeshan Hussain - Adobe:@Leigha, you can use them as per your need Leigha...

Heather:Can the free assets be used in for-profit e-learning modules created in Captivate?

GARY VANANTWERP:<https://elearning.adobe.com/2018/02/25-brand-new-video-tutorials-for-adobe-captivate-2017/>

Zach Johnson:Ok thank you Zeeshan and Linda

Aditya\_Adobe:@linda we do have a hotfix

Rayma:Awesome, Pooja! Great session!

Louie:Thanks a lot, Pooja and Zeeshan!

Joe:yes! Poojah! Excellent as usual! Would love to see a Very Advanced session using some of the underused aspects of captivate!

Wendy P:thank you!

Susanna Burger 2:This is amazing! THANK YOU!!!

Craig:Can Adobe create a better navigation system for the elearning community, like a cookie-crum line? It's frustrating trying ot use the community

Alison Antolak:Excellent overview! Thanks.

Zeeshan Hussain - Adobe:Yes Heather..Captivate licensed / subscription users can use the assets

TamecaB:that was awesome Pooja
